STATE CLEARINGHOUSE

---

# NEWSLETTER

**January 1 through 15, 2001**

## **STATE CLEARINGHOUSE NEWSLETTER**

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period January 1 through 15, **2001**.

### **CLEARINGHOUSE CONTACTS**

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte and Karen Fowler (for projects in Northern California)  
Scott Morgan and Brian Grattidge (for projects in Southern California)

### **CLEARINGHOUSE MAILING ADDRESS**

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

### **INFORMATION AVAILABLE ON-LINE**

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

# Federal Notices

## Intergovernmental Review Notices (January 1 - 15, 2001)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

**AGENCY:** Fresno County Housing and Community Development

**CONTACT:** Theresa Acosta-Mena

**TELEPHONE:** (559) 262-4168

**E-MAIL:** N/A

**ADDRESS:** Fresno County Planning & Resource Management Department, 2220 Tulare Street, 6<sup>th</sup> Floor,  
Fresno, CA 93721

**DESCRIPTION:** On or about January 31, 2001, Fresno County will submit a request to the U.S. Department of Housing and Urban Development (HUD) for the release of Community Development Block Grant funds to undertake a project. The project is the Caruthers Branch Library (site acquisition, site preparation, & development) located at Henderson & Superior Avenues in the Unincorporated Community of Caruthers in Fresno, CA. Fresno County has determined that the project will have no significant impact on the human environment. Additional project information is contained in the Environmental Review Record (ERR) on file and is available for examination and copying at Planning & Resource Management Department in the Development Services Division at the above address between Monday and Friday, 9 a.m.-5 p.m. and at the Fresno County Free Library in the Reference Department at 2420 Mariposa Street, Fresno, CA 93721 between Monday and Thursday, 9 a.m.- 9 p.m., Friday/Saturday, 9 a.m.-6 p.m., Sunday, 1 p.m.-6 p.m. Objections to the release of funds should be address to the U.S. Department of HUD, Region 9, Office of Community Planning & Development, Team A, 450 Golden Gate Avenue, Box 36003-9C, San Francisco, CA 94102-5448.

**ADDRESS:** Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426

**DESCRIPTION:** The FERC filed a Notice of Application for Amendment of License and Soliciting Comments, Motions to Intervene, and Protests on December 28, 2000 for the Big Creek No. 3 Project (project). The project is located on the San Joaquin River in Fresno, Tulare, and Kern counties and utilizes lands of the Sierra National Forest. The applicant, Southern California Edison Company (SCE), proposes to delete one 220kV transmission line because it is a part of SCE's Transmissions System Network. SCE also proposes modifications to reduce the amount of federal lands used by the project by 530 acres.

**DESCRIPTION:** The FERC filed a Notice of Application for Amendment of License and Soliciting Comments, Motions to Intervene, and Protests on December 29, 2000 for the Big Creek No. 4 Hydroelectric Project (project). The project is located on the San Joaquin River in Fresno County, Fresno, CA and located within the Sierra National Forest. The applicant, Southern California Edison Company (SCE), proposes to remove (1) the 5.8-miles transmission line from Big Creek #4 switchyard to Big Creek #3 switchyard, and (2) the 132.6-mile transmission line from Big Creek #4 switchyard to Springville to Magunden Substation from the project boundary, because they are part of SCE's interconnected system. The project boundary change is part of the re-licensing proceeding.

**ADDRESS:** Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426

**DESCRIPTION:** The FERC filed a Notice of Application for Amendment of License and Soliciting Comments, Motions to Intervene, and Protests on December 28, 2000 for the Portal Water Power Project (project). The project is located on the Rancheria Creek and Big Creek in Fresno, County, CA. The applicant, Southern California Edison Company (SCE), proposes to delete from the license the 7.58-mile-long, 33-kV Big Creek #1 - Portal transmission line, which SCE says is part of its interconnected transmission system SCE says that due to a more accurate computer mapping, the revised acreage of federal lands within the project boundary is 126.6 acres.

**ADDRESS:** Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426

**DESCRIPTION:** The FERC filed a Notice of Application for Amendment of License and Soliciting Comments, Motions to Intervene, and Protests on December 28, 2000 for the Lower Tule River Project (project). The project is located on the Tule River near the Town of Springfield in Tulare County, CA. The applicant, Southern California Edison Company (SCE), proposes to include within the project boundary and existing access road used for project purposes. This would increase the amount of federal lands within the project boundary by 1.58 acres. SCE also proposes to delete from the license, a 2.04-mile-long, 66-kV transmission line, which SCE says is part of its interconnected transmission system.

2800 Cottage Way, Room W-2605, Sacramento, CA 95825

**DESCRIPTION:** The U.S. Fish and Wildlife Service (USFWS) in a News Release dated December 21, 2000, announced that a draft economic analysis of the USFWS's proposed critical habitat designation for the California red-legged frog is now available for public review and comment through January 22, 2001. During this period, the USFWS will also accept comments on its proposal to designate 5.4 million acres

in 31 California counties as critical habitat for the threatened amphibian. The affected counties are: Alameda, Butte, Calaveras, Contra Costa, El Dorado, Fresno, Kern, Los Angeles, Mariposa, Marin, Merced, Monterey, Napa, Plumas, Riverside, San Benito, San Diego, San Joaquin, San Mateo, San Luis Obispo, Santa Barbara, Santa Clara, Santa Cruz, Sierra, Solano, Sonoma, Stanislaus, Tehama, Tuolumne, Ventura and Yuba. Copies of the economic analysis and the critical habitat proposal can be obtained by either calling the Field Office at the above number or by downloading the two documents at [www.r1.fws.gov](http://www.r1.fws.gov).

**DESCRIPTION:**

On December 22, 2000, the FERC issued an Order Amending Exemption under Article I. On September 18, 2000, Shamrock Utilities (Shamrock), exemptee for the Cloverleaf Ranch Project, filed for FERC approval to split the existing penstock and run part of it through a small pond on the property owned by Shamrock to support Rainbow Trout. The project is located on the Clover Creek in Shasta County, CA and consists of a 24-inch diameter, 738-foot long penstock. In Shamrock's filing, it stated that the purpose of the proposed change to the penstock is to create an environment to support Rainbow Trout in an existing pond, which currently does not support fish due to lack of circulation of water.

20426

**DESCRIPTION:** In a letter dated December 28, 2000, from FERC to Wayne S. White of U.S. Fish and Wildlife Service (USFWS)-Sacramento Fish and Wildlife Office FERC announced its position in an enclosed biological assessment for the Mokelumne Hydroelectric Project. The conclusion was that continued operation and maintenance of the proposed project may "adversely affect" the valley elderberry longhorn beetle, but would "not be likely to adversely affect" the bald eagle, California red-legged frog, Delta smelt, and Sacramento splittail. FERC also concluded that the project would not affect any other listed species identified in USFWS's letter of July 31, 2000. In its December 28, 2000 letter, FERC is requesting formal consultation with the USFWS office. FERC also requests that USFWS review the biological assessment and give their biological opinion on the findings as soon as possible.

**ADDRESS:** Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426

**DESCRIPTION:** In a letter from FERC to Rebecca Lent, Regional Administrator of National Marines Fisheries Service (NMFS), FERC announced the completion of its initial review of the NMFS draft Biological Opinion (DBO) (dated November 21, 2000) concerning FERC approval of a proposed change in the minimum flow regime at the Potter Valley Project (P-77-110) for the protection and enhancement of anadromous salmonids. The project is located on the Eel and Russian Rivers, in Lake and Mendocino counties, California. FERC's conclusion is that they are "still very concerned that the DBO does not address the potential impacts of [FERC's] proposed agency action in this proceeding, namely increasing the minimum flow releases to the Eel River to benefit salmonids." FERC expects to receive NMFS's final Biological Opinion by January 23, 2001.

**ADDRESS:** Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426

**DESCRIPTION:** In a letter from FERC to Rebecca Lent, Regional Administrator of National Marines Fisheries Service (NMFS), FERC addresses the effects of the Mokelumne Hydroelectric Project (Project No. 137-000-California) on the Sacramento River winter-run Chinook, Central Valley spring-run Chinook salmon, or Central Valley Steelhead, federal listed threatened and endangered species. These effects on the listed species are specified in an enclosed biological assessment, which concludes that “building, operating and maintaining the project, with our recommended measures is ‘no likely to adversely affect.’” Thus, FERC does not believe that formal consultation is required.

**ADDRESS:** Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426

**DESCRIPTION:** On December 21, 2000, FERC issued an Order Accepting Surrender of Exemption in response to a request filed by the exemptee, Fred Maerkle Hydroelectric Project (Project), on June 19, 2000 for FERC to surrender its conduit exemption (issued on August 5, 1986). The project is located on the Carlsbad Municipal Water District’s domestic water supply line in San Diego County, CA. FERC staff has determined that surrender of the conduit exemption will have no environmental effects on the immediate existing environment or to any natural resource. Removal of the power generating facilities required minimal ground disturbance and did not impact the operation of the water supply line.

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, January 02, 2001</u></b>			
2000128558	Amended San Joaquin Valley Unified Air Pollution Control District rule: Rule 4653 (Adhesives) - amended December 14, 2000 San Joaquin Valley Air Pollution Control District --San Joaquin Amended San Joaquin Valley Unified Air Pollution Control District Rule: Rule 4653 (Adhesives) - amended December 14, 2000	<b>NOE</b>	
2000128559	Erosion Repair and Stabilization of Bank Project Fish & Game #3 --Sonoma This project consists of stabilizing a badly eroded section of the south bank of the Russian River with rock rip-rap over a non-woven geotextile fabric. The project covers approximately 49 feet of river bank and uses approximately 300 tons of 18" to 36" rock rip-rap. Issuance of a Streambed Alteration Permit Number #R3-2000-0999 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>	
2000128560	Dry Creek Erosion Control Fish & Game #1 Paradise--Butte Issuance of Streambed Alteration Agreement R2-594-00, by Department of Fish and Game and pursuant to Section 1603 of the Fish and Game Code, for stream bank erosion on Dry Creek. The applicant will add boulders to the stream and create pools to slow the erosion process and to create areas for sediment deposition that will return the stream bed to its original depth (from 11 feet back to 5 feet). Five feet of the bank will be set with boulders and the remaining six feet will be terraced and sloped to a mortared stone wall. Concrete will be set behind the wall. Upon completion, cobble and drain rock will be placed in the streambed to prevent erosion and to create a spawning bed for fish.	<b>NOE</b>	
2000128561	Culvert Repair Fish & Game #2 --Placer Issuance of Streambed Alteration Agreement R2-447-00 by Department of Fish and Game for the repair of a 120-inch culvert that Indian Creek passes through on Big Dipper Road.	<b>NOE</b>	
2000128562	Improvement District No.4 Henry C. Garnett Purification Plant - Oswell Tank Redesign Kern County Water Agency Bakersfield--Kern The Kern County Water Agency's Improvement District No. 4 (ID4), 6.8 million gallon domestic water Oswell Tank has a common water inlet/outlet design. This results in long detention times and creates the need to rechlorinate the drinking water to maintain a detectable residual in the system. The disinfection by-product monitoring data shows that water leaving the Oswell Tank have elevated levels of total Disinfection Byproduct Rule requirements when they become effective in May of 2002. To remedy this situation, ID4 proposes to redesign and reconstruct the common water inlet/outlet system to a flow through design. This will ensure a significant reduction in the time water resides in the tank and allow for the continued displacement of fresh water within the tank. This will benefit the citizens of ID4 within the greater metropolitan area of Bakersfield whose supply of water depends on this facility.	<b>NOE</b>

1998071109	<p>Mojave-Rosamond Sanitary Landfill Kern County Waste Management Department</p> <p>Amend solid waste facilities to allow the continued operation of the landfill as a Class III solid waste disposal site. Amend permit to include addition property. Amend permit to include operation of the unloading building. Amend the Land Use, Open Space and Conservation Element of the Kern County Year 2000 General Plan and the Jameson Ranch Specific Plan. Obtain lot line adjustments to combine several legal parcels. Amend the Legal Description of the CUP to include the entire boundary of the MRSL. Vacate existing or recorded future streets and public easements, affecting a one-mile segment of Lone Butte Road and a 1/4 mile segment of undeveloped potential right-of-way along the eastern boundary of the MRSL. Amend the Kern County Waste Facility Habitat Conservation Plan to include additional acreage. Amend existing grading permit. Perform an archeological study. Construct a borrow pit if needed.</p>	<b>EIR</b>	02/16/2001
2000071050	<p>Segerstrom Home Ranch Draft Program EIR-1048 Costa Mesa, City of Costa Mesa--Orange</p> <p>Phased development of a 308,000 square-foot IKEA home furnishings store on 17.2 acres; 791,050 sq. ft. of office and office-related uses on 45.4 acres; 252,648 sq. ft. of industrial park development on 14.5 high-density apartments on 16.0 acres. Flood control channel improvements to the existing Greenville-Banning Channel and Gisler Channel.</p>	<b>EIR</b>	02/16/2001
2001012006	<p>Proposed Adoption of Rule 442 - Architectural Coatings Sacramento Metropolitan Air Quality Management District --Sacramento</p> <p>The primary objective of the proposed rule amendments are to set VOC limits and other requirements that are feasible (based on existing and currently developing coatings technology) and that will achieve significant reductions in VOC emissions from architectural coatings. The proposed rule amendments are also intended to improve the clarity and enforceability of the rule. The proposed rule amendments set allowable VOC content limits for a number of architectural coatings categories, including categories such as flats, nonflats industrial maintenance, lacquers, floor, roof, rust preventative, stains, and primers, sealers, and undercoaters.</p>	<b>NOP</b>	02/01/2001
2000091112	<p>Olive Vista Drive and Jefferson Road-Realignment and Bike Lane Project San Diego County Department of Public Works --San Diego</p> <p>This project is a proposal to construct bicycle lanes in the vicinity of the unincorporated community of Jamul in southeastern San Diego County. The proposed project would widen and improve shoulders of two existing roads, Olive Vista Drive and Jefferson Road, to allow for the construction of the bike lanes. The project begins 200 feet east of the intersection of Olive Vista Drive and Lyons Valley Road, and continues eastward along Olive Vista Drive for a distance of 4,968 linear feet. Widening for the bike lanes would occur on both sides of the road. In addition, the western portion of Olive Vista Drive would be slightly realigned to improve an existing curve in the road. The bike lane improvements for Jefferson Drive begin at the intersection of Olive Vista Drive, and continue mostly on the west side of the road northward on Jefferson for a distance of 294 feet.</p>	<b>Neg</b>	02/01/2001

	acres. Water collected to storage pursuant to this application will be used for recreation and fire protection. Water will be diverted from December 1 through March 1 from Love Creek tributary to Mill Creek thence North Fork Stanislaus River. Water not authorized for storage and use is passed through the dam via a three-inch outlet pipe located near the bottom of the reservoir. The reservoir is located approximately two miles southwest of the community of White Pines in Calaveras County.		
2001012008	Gallo of Sonoma PRMD File #UPE 00-0035 Sonoma County Permit and Resource Management Department Santa Rosa--Sonoma Increase the annual production at an existing winery from crushing 40,000 tons of grapes to 65,000 tons of grapes annually, producing 4.9 million cases of wine with a total of 155 employees, of which 35 would be new employees, with an additional 15 employees during the harvest season. The project includes construction of a 100,000 square foot cellar, expansion of the bottling building from 8,000 square feet to 22,500 square feet, a 7,500 square foot maintenance building, a 20,000 square foot operations building, outside storage of tanks, a finished goods/staging area of 12,000 square feet and a sugar testing platform. The applicant anticipates an average of 100,000 gallons of water to be used during crush operations. The existing wastewater system is adequate, according to the Water Quality Control Board to handle this loading. No new ponds are proposed. Due to the large volume of wells existing on site, no water-related impacts are likely to occur, according to the Project Review Health Specialist. The proposed cellar building will have earth berms on the sides and the project includes a tree screen to prevent adverse visual impacts on Dry Creek Road.	<b>Neg</b>	02/02/2001
2001012009	Calaveras Road Slope Stabilization Project Milpitas, City of Milpitas--Santa Clara The proposed project consists of the stabilization of the bank supporting the south shoulder of Calaveras Road with mechanical soil anchors and miscellaneous drainage improvements (Phase 1), and the installation of drilled piers or a retaining wall to arrest further movement of soils (Phase II).	<b>Neg</b>	02/02/2001
2000061097	Rincon Casino Interim Facility Rincon San Luiseno Band of Mission Indians Tribal Council Valley Center--San Diego The temporary gaming facility is to be housed jointly in the refurbished tribal bingo hall, a 27,000 square-foot Sprung structure, and four single-story modular structures totaling approximately 13,000 square feet installed adjacent to the existing bingo hall. The completed Phase two Interim Facility will house approximately 45,000 square feet of gaming area and a limited range of food and beverage facilities. There is an existing paved parking lot comprising 358 parking spaces, which will be expanded to approximately 1,350 spaces, with an additional 14 handicapped-accessible spaces. The total development will occupy approximately 40 acres.	<b>Oth</b>	01/15/2001

<b><u>Documents Received on Thursday, January 04, 2001</u></b>			
1997051048	Horizon Hill Subdivision Watsonville, City of WATSONVILLE--SANTA CRUZ This project is located near Watsonville Slough, and consists of a 111-unit subdivision which is partially completed. The portion of the project subject to the approval of the Department of Fish and Game consists of a stormdrain outfall and energy dissipater into an upland area above Harkins Slough. The culvert is already in place and is operational at this time. The removal of some vegetation such as blackberry bushes and coyote bushes will be necessary.	<b>NOD</b>	
1998021012	Solana Beach Towne Center Office Project Solana Beach, City of Solana Beach--SAN DIEGO California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant, Mr. John Chamberlain, representing American Assets, Inc. The applicant proposes to alter the streambed within Stevens Creek to accommodate the redevelopment of an existing 10.1 acre site and an adjacent 0.8 acre portion of the Solana Beach Towne Center impacting 0.17 acres of streambed. Redevelopment includes two office buildings, retail and restaurant uses, and a parking structure. Two existing office buildings on the site will remain. The project also includes the creation of 0.51 acres of vegetated streambed on-site to satisfy water quality mitigation requirements.	<b>NOD</b>	
1999071046	Improvement and Stabilization to the Slopes adjacent to OCTA Rail Milepost 195 Orange County Transportation Authority San Juan Capistrano--Orange The California Department of Fish and Game has issued an Agreement Regarding Proposed Stream Alteration to the Orange County Transportation Authority in conjunction with the applicant's proposal to alter the streambed to construct a bank stabilization project along 1,887 feet of Oso Creek, impacting 2.65 acres of stream, vegetated with willow riparian, mulefat scrub, cattails and exotic species. The current width of the stream ranges from 39 feet to 94, with an approximate average of 60 feet wide. The proposed project would expand the corridor to approximately 250 feet. Mitigation measures include the creation of more than 5.3 acres of riparian habitat within the approximate 10-acre recreated stream.	<b>NOD</b>	
2000102092	Tentative Parcel Map - Livingston Avenue between Olympian Way and Sterling Avenue Pacifica, City of Pacifica--San Mateo Subdivision of an existing 33,104 square foot vacant parcel into two 16,552 square foot parcels, and the construction of two single family detached homes.	<b>NOD</b>

2001011013	Water Purchase, Groundwater Storage, and Recovery Agreement between Rosedale Rio Bravo Water Storage District and DWR for the Environmental Water Account Water Resources, Department of Bakersfield--Kern Upon completion of an agreement between the Department of Water Resources and Rosedale Rio-Bravo Water Storage District (RRB), RRB will sell 19,000 acre-feet of water to the EWA and will provide an additional 45,000 acre-feet of groundwater storage capacity for EWA water, RRB will also provide 5,000 acre-feet of recovery capacity in 2001 and 15,000 acre-feet of recovery capacity in 2002. The 19,000 acre-feet of water being sold by RRB is banked water from an existing Friant Kern account. If the Department elects to use the storage capacity leased under this agreement, the Department would deliver water for storage between December 2000 and March 2001 via the California Aqueduct and the Cross Valley Canal. The recovery of banked water would involve delivery into San Luis Reservoir by an exchange of SWP entitlement and/or direct pump-back into the California Aqueduct, and would be available under any level of SWP allocation to RRB. RRB will require a 30 day notice before recovery begins. The stored water would be EWA water that the Department acquired from RRB or from other participating water agencies and districts north and south of the Delta. The Department would be responsible for all costs to deliver EWA water to the Cross Valley Canal turnout of the California Aqueduct. EWA water delivered into RRB's groundwater storage area will be subject to 15 percent losses. If 45,000 acre-feet is deposited, then EWA would only be entitled to recover 38,250 acre-feet for later use. No new facilities will be constructed under this project.	<b>Oth</b>	02/06/2001

	adjacent to the existing elementary school.		
2000052045	South Sonoma Business Park Cotati, City of Cotati--Sonoma The project is designed to accommodate the growing telecommunications and other local industries who require additional space. The project total square footage is 650,000 gross square feet (GSF). It proposes the construction and operations of approximately 128,700 square feet of retail and office uses and 521,3000 square feet of corporate facilities buildings with associated parking, infrastructure and landscaping. A "backbone" infrastructure system is proposed to extend utilities and access into the site in a logical and orderly manner. Architectural and landscape design guidelines are proposed to facilitate an attractive and visually cohesive project over time.	<b>EIR</b>	02/22/2001
2000054008	Timbisha Shoshone Legislative Environmental Impact Statement National Park Service --Inyo The legislative environmental impact statement (LEIS) analyzes possible environmental impacts that could result from the transfer of federal lands or the purchase of private lands. Transfer of lands currently managed by the National Park Service and the Bureau of Land Management requires congressional approval. The LEIS also seeks congressional authorization to purchase two parcels of approximately 2,550 acres from private owners.	<b>FIS</b>	
2001011026	Richgrove Storm Water Drainage/Recreation Project Tulare County --Tulare Construction of a storm water drainage system with a dual-purpose detention basin/recreational facility, and construction of curbs, gutters, and sidewalks to provide all weather surfaces, and providing safer routes for pedestrian traffic.	<b>JD</b>	02/07/2001
2001011030	Culver Drive Widening and Realignment IS/EA Irvine, City of Irvine--Orange The project proposes to widen the subject portion of Culver Drive from a two lane undivided roadway to a four lane divided roadway and realign it approximately 100 feet from the Village of Turtle Rock.	<b>JD</b>	02/07/2001
2000062143	General/Specific Plan Amendment (File No. GP00-06-001) for Del Monte Plant No. 3 San Jose, City of San Jose--Santa Clara The project consists of a General/Specific Plan Amendment to change the San Jose 2020 General Plan Land Use/Transportation Diagram/Midtown Specific Plan designation of Combined Industrial/Commerical to Industrial Park on approximately 18.7 acres located on both sides of Auzerais Avenue, between Sunol Street and Los Gatos Creek, south of West San Carlos and North Home Street. The mix of uses proposed includes up to 2.4 million square feet of office, retail and telecommunications uses, and between 350 and 1,000 residential units. The proposed structures would be up to 270 feet in height.	<b>NOP</b>	02/07/2001

2001011028	R. Rex Parris Continuation High School Antelope Valley Union High School District Palmdale--Los Angeles The Antelope Valley Union High School District proposes to construct a new continuation high school in Palmdale. The school will operate in two shifts per day, each shift accomodating up to 300 students, serving a total of approximately 600 students. The 6-acre project site would accomodate 19,200 square feet of administrative offices, classrooms and other support facilities. Access to the site will be provided via two driveways off 6th Street East. A parking lot will provide 54 parking spaces on the site.	<b>Neg</b>	02/07/2001
2001011029	Zone Change P2 00-006 Tulare County Resource Management Agency --Tulare Change of zone from A-1 (Agriculture) to R-2 (Two Family Residential).	<b>Neg</b>	02/07/2001
2001011031	Rhino Art Supply Commercial Building Encinitas, City of Encinitas--San Diego New commercial structure on an existing 0.034 acre site.	<b>Neg</b>	02/07/2001
2001012022	Gravel Mining in Red Bank Creek, Chase Gravel Fish & Game HQ Red Bluff--Tehama The Project consists of an instream gravel removal operation whereby the extraction of gravel is accomplished by "skimming" or grading aggregate from gravel bars above the low water channel. No excavations in the channel are deeper than the thalweg (the line connecting the lowest or deepest points along the streambed). A positive slope is maintained from the thalweg to the streambanks.	<b>Neg</b>	02/07/2001

<b><u>Documents Received on Tuesday, January 09, 2001</u></b>			
2001012023	<p>Preda Street Homes San Leandro, City of San Leandro--Alameda</p> <p>The proposed project includes development of 69 detached single-family homes on property encompassing a total of approximately 8.87 acres. The project site would be rezoned from IL - Industrial Limited District, to RS-Residential Single Family with a PD-Planned Development Overlay in order to facilitate this development. The four existing parcels will be subdivided into a total of 74 parcels, including 69 single-family lots, ranging in size from approximately 2,352 square feet to 3,588 square feet in size. Homes sizes would range in size from approximately 2,008 square feet to 2,566 square feet and include three to four bathrooms and an attached, two-car garage. The remaining five parcels would comprise a public open space element consisting of a walking trail along San Leandro Creek and a central 0.31-acre passive park with a tot-lot and benches.</p>	<b>Neg</b>	02/07/2001
2001012024	<p>Calera Creek Floodwalls Project Santa Clara Valley Water District Milpitas--Santa Clara</p> <p>The objectives of the project are to provide 100-year flood protection with freeboard consistent with District and Federal Emergency Management Agency policies, provide a maintenance crossing to access the project area, and to protect the California Landing residential development from flooding.</p>	<b>Neg</b>	02/07/2001
1999061045	<p>Interstate 5/Western Avenue Access Project Caltrans #7 Glendale--Los Angeles</p> <p>The California Department of Transportation (Caltrans), District 7, in cooperation with the City of Glendale is proposing to modify the Interstate 5/Western Avenue Interchange and surrounding surface streets. The proposed project may necessitate the acquisition of properties within and adjacent to the project area. The project is within the San Fernando Valley Wellfield Superfund site, which is limited to groundwater. Contaminated soils may also be encountered throughout the project area. The proposed work will require the acquisition of a right of way.</p>	<b>NOD</b>	
1999062037	<p>Los Alamos Hills Master Plan EIR (99-078) Murrieta, City of Murrieta--Riverside</p> <p>The Murrieta Valley Unified School District proposes to revise the high school site plan included in the Los Alamos Hills Master Plan by incorporating an additional 25 acres into the Master Plan area and by realigning Whitewood Road. The revised high school site plan would accomodate an increase in maximum enrollment capacity from 2,500 to 3,500 students.</p>	<b>NOD</b>	
2000042081	<p>Music Circus Renovation Project (P99-029) Sacramento, City of Sacramento--Sacramento</p> <p>The project would renovate the existing main stage theater, including new seating, and a new permanent tent structure. A new performance stage and rehearsal stage are also proposed. In addition, improvements to the box office, retail, and restroom facilities are planned. A new concession area will be built, and the lobby will be renovated. Outdoor lobby courtyard spaces will be enhanced.</p>	<b>NOD</b>

	standards. The Accelerated School will expand its facilities and enrollment by demolishing the warehouse-type buildings that currently exist on site, as well as the three residential properties on Woodlawn Avenue recently acquired by the school, and constructing a new 96,000-square foot facility to serve approximately 870 pre-school through grade 12 students.		
2001011052	Guajome Park Academy Expansion Vista City Unified School Dist. Vista--San Diego The proposed project consists of development and operation of a middle/high school on a 16.39 acre site. The school is estimated to accommodate 1,400 students and serve grades 6 through 12. The project includes demolition of the existing school facility and construction of 106,443 square feet of permanent facilities, a central amphitheater, recreational areas, parking and associated improvements.	<b>Neg</b>	
2001011053	Reconstruction of a Caltrans Maintenance Station at Old Bolsa Chica Road Caltrans #12 Seal Beach, Westminster--Orange The proposed project is the reconstruction of the existing Bolsa Chica Maintenance Facility, involving demolition and construction for a modern office building and storage bays, an equipment service center chemical storage spaces, concrete bins, emergency eyewash rack, restrooms with handicapped accessibility, paved parking, and other minor but necessary features. Grading and A/C overlay will occur, along with trenching and possible removal of two underground sewage tanks.	<b>Neg</b>	02/12/2001
2001011054	Burgundy Hills Townhomes Project Buellton, City of Buellton--Santa Barbara The proposed project consists of two (2) interrelated land use applications, all of which specifically concern the subject property: a. Vesting Tentative Tract Map; b. Preliminary Development Plan. The proposed project involves allowing the development of a 29-unit Planned Unit Development of Townhomes on two existing parcels totaling 3.9 acres. The project would therefore feature a residential density of 7.4 units per acre. The project involves 38,876 square feet (0.9 acre) of total habitable living area and 11,128 feet (0.25 acre) of total garage/storage space (refer to Figure 3, Site Plan). The total building footprint would be 22,457 square feet (0.5 acre), which would represent approximately 13.2% of the site. The proposed residential units would be clustered in the gently sloping southern and steeper central portion of the site.	<b>Neg</b>	02/12/2001
2001011057	James Irrigation District - District Groundwater Recharge Basin James Irrigation District San Joaquin--Fresno The James Irrigation District (JID), proposes to construct a groundwater recharge basin located approximately 4.5 miles southeast of the town of San Joaquin. This project is intended to improve JID's groundwater recharge capability and lessen the groundwater overdraft within the district. This will provide storage that will provide regulation and greater efficiency in delivery of surface waters.	<b>Neg</b>	02/12/2001

<b><u>Documents Received on Friday, January 12, 2001</u></b>			
2001011058	<p>Eastside Groundwater Storage Project James Irrigation District San Joaquin--Fresno</p> <p>James Irrigation District (James ID) proposes to implement a groundwater storage project over approximately 8,950 acres of land, in order to augment existing irrigation water supplies and reduce overdraft within the Kings sub-basin of the San Joaquin groundwater basin. James ID has historically on average provided approximately 30 percent of its irrigation deliveries from nearby groundwater sources. By recharging the area where the majority of James ID wells are located, it is anticipated, that during drought years groundwater will be more readily available when surface water supplies are limited, the groundwater levels will rise in the project area, and additional Kings River water will be beneficially used within the Kings River Service Area.</p>	<b>Neg</b>	02/12/2001
2001011060	<p>Central Juvenile Hall Housing Unit Replacement Project Los Angeles County Department of Public Works Los Angeles, City of--Los Angeles</p> <p>The LADPW is proposing to expand the capacity of Central Juvenile Hall with two new 120-bed housing facilities and a parking structure in the short-term and another three 120-bed housing facilities in the long-term (by 2010). The proposed project would involve the demolition of several buildings to accommodate the new housing facilities.</p>	<b>Neg</b>	02/12/2001
